MLPC

PROFILE

- 100% subsidiary of Arkema
- World leader in the production and sales of **additives for the rubber industry and chemical intermediates**
- A specialist in chemistry of **CS₂**
- Provider of safer **solutions for vulcanization** system to customers through **its own R&D with Arkema R&D support**
- Superior supply chain reliability around the world

Sales in more than
32 countries

2

Production sites: Rion des Landes & Lesgor

Both production sites are SEVESO high threshold and comply with ICPE regulations

156

employees

1

technical support

1

R&D center

OUR CERTIFICATIONS

- With a leading industrial and commercial presence, **Arkema** operates in 55 countries with 21,100 employees worldwide, 16 R&D centers and 148 industrial sites
- In 2020, **Arkema** has been entering a new phase of its transformation and will reinforce **its expertise now structured into three coherent and complementary segments** - Adhesive Solutions, Advanced Materials, and Coating Solutions

MLPC belongs the Advanced Materials Segment

Arkema aims to generate sustainable and responsible growth for its businesses and to meet societal challenges by providing its customers with sustainable and innovative solutions that contribute to the Sustainable Development Goals defined by the United Nations

Introduction – Location

MLPC is located in
South-West of
France, near
Bordeaux

Rion
des
Landes

Lesgor

MLPC history

Lesgor plant

Rion des Landes plant

Chemistry

- **Additives for rubber to metal adhesives**

Polymerbond for rubber additives

- **Rubber additives**

**Brand of masterbatches
(MIXLAND+®)**

Advantages of the Mixland+® brand

MIXLAND+®

Lower scrap rates thanks to the high level of filtration

Faster dispersion

Easier of handling

Better chemical stability

Higher quality consistency

Wider elastomers compatibility

Cost savings thanks to a higher chemical efficiency

Quality, Health/Safety & Environment

Health Environment & Safety

- Both production sites are SEVESO high threshold and comply with ICPE regulations for the control of industrial and environmental risk
- All our production units are subject to a periodic assessment of risks
- Arkema Best Practices are implemented
- Statistics and Indicators track performance on all relevant HSE aspects

- ISO 9001v2015
- ISO 14001v2015
- ISO 45001v2018

- Very good acceptance by local communities and local NGOs (no complaint for more than 3 years)
- Permanent dialogue with local political and administrative officials

Our strategy

MLPC is an industrial chemical company, subsidiary of Arkema which mainly offers additives for the rubber market and specialty niche chemicals, in synergy with our technologies and industrial assets.

It evolves in partnership with the specialists of the targeted markets.

		
<p>Our CUSTOMERS can expect from us:</p> <ul style="list-style-type: none">• A high level of quality of products and services• A Technical support in our rubber core business• A R&D enabling us to market regularly new products to meet evolving technical requirements and environmental issues 	<p>Committed and supportive and aware of the challenges of Sustainable Development, MLPC employees work to provide to</p> <ul style="list-style-type: none">• A safe and adequate workplace• Economic results to provide further investment• Reliable and cost-efficient production processes• Respectful relationships based on teamwork and open dialog• Smart management of priorities	<p>As a responsible producer of chemicals, MLPC International is committed to a proactive and durable improvement plan, with the goal to:</p> <ul style="list-style-type: none">• Protect/Prevent Analyze and control all risks and their impacts in order to protect all our employees and external stakeholders, and to protect the environment against any accident that may occur during operations Prevent all risks and their impacts that could affect all those with whom MLPC cooperates• Comply Anticipating and complying with new applicable regulations, Arkema requirements and working towards a more environmentally friendly production• Improve Capitalizing on opportunities and feedback from experience in a process of continuous improvement

We are committed to a sustainable future

We deliver sustainable solutions driven by innovation	We manage our activities as a responsible manufacturer	We cultivate an open dialog and close relations with our stakeholders
<p>Responsible product stewardship : - 2030 Target: 65% sales must be (Impact+)</p> <p>Have a significant contribution to SDGs</p> <p> SUSTAINABLE DEVELOPMENT GOALS</p> <p>Implement and facilitate circularity - 2022: 10% of sales with renewable and recycled materials</p>	<p>Safety : 2 indicators for 2030</p> <ol style="list-style-type: none">1. TRIR: achieve 0.82. PSER: achieve 2.0 <p>Climate : 2 indicators for GHG</p> <p>SBTi approve Arkema trajectory of 1.5°C in 2030: Scope 1&2: -48.5% Scope 3: -54%</p> <p>2030 targets:</p> <ul style="list-style-type: none">- Energy 25% reduction in consumption intensity- Water 60% reduction in intensive emission- Air 65% reduction in intensive emission of volatile organic compounds <p>https://www.arkema.com/global/en/investor-relations/corporate-governance/csr/</p>	<p>Employee development and diversity: 2030 targets: 30% female senior management and 50% non-French nationals among senior management and executives</p> <p>Responsible Purchasing > 80% suppliers covered by TfS assessment</p> 

We are committed to a sustainable future

In that context, in 2025 MLPC continued to invest heavily in its assets:

- **Water** : Optimization of our treatment plants to improve the quality of our discharges and thus reduce our environmental impact.
- **Energy** : Optimization of processes to make them more economical.
- **The circular economy** : Research and implementation of recycling and recovery channels (wood/plastic pallets, paper/cardboard, metals, WEEE, soil, etc)...
- **The land** : Soil protection during construction, environmental monitoring.
- **The Air** : Securing processes, monitoring and treating our waste to comply with regulations.
